

SUCCESS STORY ON CONSTRUCTION OF LINK ROAD AT ZAU AU, LUNGDAI

<i>Name of Project</i>	<i>: Link Road at Zau Au, Lungdai</i>
<i>Cost of the Project</i>	<i>: Rs.10 Lakhs</i>
<i>Year of funding</i>	<i>: RKVY 2013-2014</i>

Brief note of the Project :

Zau Au cluster at Lungdai is a very good Agriculture potential area, with more than 29 hard working farmers. Before construction of Link Road, farmers in this area faced many problems in transportation of Agriculture inputs (fertilizers, pesticides, weedicides, and seeds), Cultivation of Oil Palm cannot be taken up due to unavailability of Potential area connectivity.

In the year 2014, knowing the needs of the area, 2.0 Kms link road was constructed. Thus problem faced by farmers in transporting Agriculture inputs were tackled. Farmers in the area could taken up large scale cultivation of Crops such as Oil Palm and other horticulture Crops. Farmers could easily transport their farm produce to the market.
