

CONSTRUCTION OF WRC –I AT TLAWNGKUAL ZAU, SAMLUKHAI

1. Name of Project : WRC – I at Tlawngkual zau
2. Cost of the Project : Rs. 24.00 Lakhs
3. Year of funding : RKVY - 2012 – 2013
4. Name of Beneficiaries : As below

Sl no.	Name of beneficiaries	Fathers Name	Address	Area Developed (In Ha)
1	Ramnuna	Lalzara	Samlukhai	1.50
2	Thanglura	Thanchuanga	Samlukhai	1.50
3	Parliana	Kapthianga	Samlukhai	1.50
4	Laltlanmawia	Vanzinga	Samlukhai	1.50
5	Zoramawia	Aisanga	Samlukhai	2.50
6	Kapchawla	Zakunga	Samlukhai	2.50
7	Lallawma	Vanzinga	Samlukhai	1.50
8	Vanthuama	Phirhmingthanga	Samlukhai	1.50
9	Lallura	Ferema	Samlukhai	1.50
10	Satthuama	Zakunga	Samlukhai	1.50
11	Chawiliana	Chhuanvawra	Samlukhai	1.50
12	Biaktluanga	Chhuanvawra	Samlukhai	2.50
13	Rothuamluaia	Ramnuna	Samlukhai	1.50
14	Vanrammawia	Satthuama	Samlukhai	1.50
15	Thangmawia	Lallura	Samlukhai	1.50
16	Rintluanga	Vanzinga	Samlukhai	1.50
17	Laltharzela	Rintluanga	Samlukhai	1.50
18	Lalnehzauva	Zoramawia	Samlukhai	1.50
			Total	30.00

Brief note of the project:

Tlawngkual Zau is located on the bank of Tlawng river with 18 kms. from Samlukhai village, the soil is fertile and the average slope percent falls below 15%. It has more than 50 ha of potential area which can be easily converted into terrace for WRC-I. Around 35 farmers of Samlukhai village having land in this areas, but due to financial problem no farmers could developed their land for wet rice cultivation and they kept their land barren since long years

During 2012-2013 Land Development work had been done from RKVY scheme in Tlawngkual zau cluster which covered 20 Ha of land with 18 families. With the opportunity of this scheme 15 families of Samlukhai village started cultivation of rice as permanent farming in this Cluster. At present farmers of this cluster started producing vegetables during winter just after when paddy is harvested. This new pattern of cropping system makes a profitable additional income and uplifted the economy of Samlukhai village.
