

Success Story-6

Name of the beneficiary: Harung Hamkhrai Bodol S.H.G

Name of the scheme by which benefit extended: Installment of Fiberglass reinforcement plastic (FRP hatcheries for quality seed production under RKVY during the year 2015-16.

Name of the G.P/ADC: Killa ADC village.

Name of Block : Killa R.D.Block, Udaipur, Gomati Tripura.

The Harung Hamkhrai Bodol is a fishery based S.H.G formed during the year 2011-12. There are total 11 members in this group, 2 female members and 9 male members. They are doing fish culture over 2.16 ha water area on lease basis. In 0.64 ha area they are doing nursery rearing and 1.52 ha area they are using for brood fish rearing and fish culture. During the FY: 2015-16 the S.H.G got one FRP hatchery under RKVY scheme. In 2018, the members of S.H.G started induced breeding of IMC in FRP hatchery and in two operational cycles 9 ltr. spawn have been produced. Earlier the S.H.G members used to buy spawn from government hatchery or private hatchery but this year they have stocked 2 ltr. Spawn in their own nursery pond from their own production which has reduced their cost of fingerling production. Moreover, they have sold 7 ltr. Of IMC spawn @Rs. 3500/ltr. to the remote areas of Killa R.D. Block which helped in meeting the local demand of spawn and also generate additional fund for the group.
