

COMMUNITY WATER TANK AT KEIFANG

Name of Cluster	:	Kaihzawl
Location	:	Kaihzawl , Saitual
No of benefitted farmers	:	6Nos.
No. of Intervention	:	Community Water Tank
Cost of the Project	:	2 lakhs
Size	:	3.144x 3Mx2.4.
Capacity	:	22600p Litres

Community Water Harvesting Tank was constructed at Lalduhawma Farm . Due to insufficiency of Water resource in this area, out of 12Ha of land only 7 Ha can be utilized for cultivation of paddy during Kharif season. During Rabi season no vigitable crops can be grown due to lack of Water with the construction of Community Water Harvesting Tank under RKVY during 2011-2012 more land can be utilized not only for cultivation of Paddy during Kharif season . But also for production of Vegetables during Rabi season. This infrastructure development from RKVY scheme created a drastic change in increasing their annual income and uplifted the economic condition of his family.
