

SUCCESS STORIES OF WRC-II

Name of Project : WRC II at Zolui Zau, Kolasib

Cost of the Project : Rs.11.04 Lakhs

Year of funding : RKVY 2012-2013

Name of beneficiaries:

Sl No.	Name	Father's Name	Address	Area Developed (Ha)
1	Lalpianga	Rualhleia	Vengthar, Kolasib	1.0
2	Lalthankima	Lalpianga	Vengthar, Kolasib	0.5
3	F.Hrangzika	Darkhama	Diakkawn, Kolasib	1.0
4	Lalnunmawii	Zosanga	Diakkawn, Kolasib	1.0
5	B.Lalrinawmi	Lalramtiana	Diakkawn, Kolasib	0.5
6	Roneihkhawli	Hmuakliana	Diakkawn, Kolasib	1.0
7	C.Lalrinchhana	Hrangluaia	Diakkawn, Kolasib	1.0
8	Rothathanga	K.Buaia	Diakkawn, Kolasib	1.0
9	R.Lalzarliana	R.Lalthansiama	Vengthar, Kolasib	1.0
10	Parmawia	Thantluanga(L)	Project veng, Kolasib	2.0
			Total	10.0 Ha.

Conti...

A. Before the Project (Brief write-up on production and cultivation practices in the area/ cluster and general economic condition of the farmers with photographs).

Most farmers miserably cultivated in a steep and uneven places with their might and main effort before implementation of WRC-II in Zolui Zau. But erosion of fertile soil took place every year which caused unproductive farming and cultivation.

B. After the Project (Brief write-up on impact of the intervention in farmers economy, production and farming practice in the area/ cluster (including areas created in case of WRC-I & II) with photograph).

Eight (8) hectare of WRC II has been created under RKVY at Zolui Zau, Kolasib. Jhum farmers started to cultivate in Terrace where productivity increased from 0.9-1.0 MT to 1.2-1.5 MT per Hactare. The fertile soil is conserved by the through creation of WRC-II in these areas which can help fertilizer application. This change in soil management give much pleasures and gladness to the needy farmers. Also give more convenience for getting bigger and better income for the farmers.
