

SUCCESS STORY IN RESPECT OF PULALZARMAWIA, PHULLEN

1. Name of Farmers : Pu Lalzarmawia
2. Fathers/ Mothers Name : Lalnghilovi
3. Name of Project : RKVY (2014 – 2015)
4. Location : Tuiriza, Phullen
5. Name of Intervention : **Improved Jhum (IJ)**
6. Contact No : 89974171090

Brief note of before the Project: Before adopting Improved Jhum, Mr Lalzarmawia's rice production never increased. In 1 Ha of land he could harvest only around 15 Qtls. Of Rice. No fertilizers and Chemical were utilized for enhancing rice poroductivity. No soil conservation measure were taken up. Jhum farming did not contribute to his economy.

After the project: After adoption of Imroved Jhum under RKVY Scheme production of Rice increased to 19 Qtls. In 1 Ha. of Land. After adopting Improved Jhum he could conserve fertility of the soil through application of Fertilizers and bunding which increase his production not only in rice but also in other crops as well. This uplift his economic condition and thus motivate him to adopt Improved Jhum.
