

**Minutes cum Points raised by the States during the RKVY RDMIS  
Training sessions held on 07.09.2016 to 09.09.2016 at Krishi Bhawan,  
New Delhi**

Sl. No.	Issues Raised by States	Action Taken by DAC&FW/NIC
1	Size of DPR upload should be increased	Upload size increased upto 50 MB now.  JS (RKVY) clarified that a top sheet with guidelines for DPR preparations will be provided to states to keep desirable DPR size.
2	States requested for Regional work shop for RDMIS training in the States	JS (RKVY) assured for the same on specific requests from States.
3	Beneficiaries column should not be compulsory	Now it is made optional. Beneficiary's page has been changed and a new page has been developed by NIC/DAC&FW which will appear on the login of the States.  JS (RKVY), however clarified /emphasized that now time has come where entering of beneficiary details is a must. So States should hire DEOs for, inter-alia, entering beneficiary details.  In beneficiary details a new option- Transgender is also to be added along with Male and Female.
4	If a research project then overall physical Targets option should not highlight	DAC&FW noted.
5	Category of the Project should have more options rather than (i) Infrastructure and assets (ii) Production Growth (iii) Flexi Funds	DAC&FW now changed the options (i) Infrastructure and assets (ii) Infrastructure, assets, Production and Growth (iii) Production and Growth (iv) Special Scheme

6	Add component issue raised by the state i.e. if there is no component in the project	DAC&FW: State should have taken at least one component; they can take even one component as a project.
7	States wants to the change the language of the field of :- Description of overall physical Target	DAC&FW has changed : Description of overall Target
8	Projects ID of Ongoing Projects to be generated as a new.	DAC&FW: It is not right way for an ongoing project, which should be with old ID.
9	If SLSC changed the cost of projects or component of a running projects meant for more than 1 year no RDMIS entry is possible for the project ID	DAC&FW : If the cost of projects or component changed by the SLSC then it is new project and RDMIS entry would be through a new project ID
10	Provision for modifying entry for a projects ID when target is changed by the SLSC	DAC&FW: Request should be sent through GOV Email to NIC or in written to DAC&FW
11	Need of revalidation of money for an old project.	DAC&FW clarified that if balance money is to be used for old projects there is no need of revalidation in the system.
12	Whether the project is included in SAP/DAPs	DAC&FW change the field with one more option SAP/DAPs/SAIDP/Others. And with the other option a new box will appear for textual entry for the state.
13	Project started before the New Beta Version now New Entry not possible in the version	DAC&FW clarified that for projects started in old version entry should be continued in the old version irrespective of the New version. No need of creating a new project ID in new version. Only for the projects started in 2015-16 onwards should be entered in New version
14	Success Story upload Permission on the State Level	DAC&FW noted. Direct unlinking facility will be provided within 15 days
15	DAP/SAP upload Permission on the State Level	DAC&FW noted.
16	Expenditure field in each quarter starting from the 2 <sup>nd</sup> quarter asks for cumulative total in Rs. in lakh,. But	DAC&FW noted It will solved within 20-30 days

	the final total is the cumulative total expressed in Rs. in crore. Hence there is duplication	
17	Funds Released to State/Nodal Department. But line Departments is not getting money, because of RDMIS function not working properly.	DAC&FW- Noticed and will be sorted out in time.
18	SLPSC rejected a project.	The same will be reflected with the implementing Department with same project ID to modify the project. Till SLPSC not approved, that project will not show in the list of proposed projects list for approval of SLSC.
19	Adding a progress report every year however projects was initially for less time	Addition of the progress can be done till the completion irrespective of the duration of project fixed initially. Till all components of the project not completed, the project cannot be completed.
20	The initial project cost was increased later on and so expenditure increases but CAG pointed out how expenditure is more than the project's cost.	DAC&FW/NIC will provide an option for modifying projects cost later on subject to approval of SLSC / SLPSC/ Chief Secretary.
21	Physical and Financial progress of the project field completed in RDMIS however, liability is there/financially there is lack of money.	Problem shorted out through NIC
22	How to enter the expenditure quarter-wise	DAC&FW: - In the 1 <sup>st</sup> quarter expenditure of only first quarter should be entered, in 2 <sup>nd</sup> quarter cumulative amount (1 <sup>st</sup> + 2 <sup>nd</sup> ) should be entered and so on. If expenditure for 2 <sup>nd</sup> quarter is 0 then mention expenditure of 1 <sup>st</sup> quarter.
23	If SLSC later on abandoned approved projects / due to certain reasons state can never start	DAC&FW: Noticed. NIC will provide an option for that.
24	SLSC decide to abandon a running project / some expenditure incurred	DAC&FW Noted: State may request to DAC&FW/NIC to hide those projects and state should send the UC of the expenditure.

25	CAG calling for completion certificate for every project , that entry not possible by the States	DAC&FW: JS (RKVY) suggested for a window in RDMIS for block level officers for data entry of projects/no. of beneficiaries. 1% of RKVY fund may be utilized for hiring personnel for data entry / administrative purposes
26	If the projects coordinator changed in due time how to update details new coordinator	DAC&FW: Noted, options will be provided.
27	Window for Projects not routed through SLPSC	DAC&FW: will provide that window where some Projects can be taken directly by the SLSC. SSO clarified that as per RKVY Guidelines SLSC can take up projects directly without being routed through SLPSC.
